SOLUTIONS**

ABOUT US

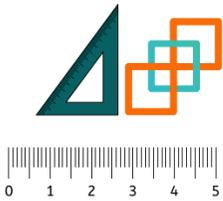

AT DRROOF, WE SPECIALIZE IN COMPREHENSIVE PROJECT EXECUTION SERVICES — MANAGING EVERY PHASE FROM DESIGN AND MATERIAL MANUFACTURING TO SITE INSTALLATION AND PROJECT HANDOVER. OUR IN-HOUSE DIVISIONS AND EXPERT TEAMS ENSURE SPEED, SAFETY, AND SUPERIOR QUALITY AT EVERY STEP.

TURNKEY SOLUTION

Site Survey

Detailed, on-site evaluation is the essential first step, involving a physical and assessment of the roof's condition, structure and exact dimensions. Allows identification of structural needs and potential issues before planning begins. Ensures a precise scope of work, material selection, and a fixed, transparent quotation.

Design & Detailing

Bill of Material calculation 2-D layouts and proposal drawing via CAD support
Complex roof geometries and innovative designs Purlins, sag rod, brace rod detailing
Technical consultation.

Manufacturing

At Drroof we use primary, high quality, pre-painted or bare galvanized and zinc-aluminium coils. We carry stock in our plant of standard colors (Brick Red, Blue, Off White) such that we can dispatch within 48 hours of order confirmation.

Installation

Installation, laying and fixing of sheets is just as important as using good quality material. Roofing and cladding installation is an extremely technical and skill-based job and which contractor you choose can completely determine the outcome of your project. TBSC prides itself in its installation and fixing expertise.

Project Completion

Timely handover, completion on schedule and ready for immediate use, reflecting our commitment to efficiency. Final, rigorous inspection ensures the build meets all quality and structural standards. Seamless transition to a finished product, complete with all project documentation and full material and workmanship warranties.
